

## Advance Audit

*Aim: Audit Management Systems more effectively.*

### Introduction:

When auditing QMS of any organization, the main responsibility of QMS auditor is to add value not to hunt for non conformities. Therefore, effective quality auditor must be familiar with two things :

1. Audit techniques and management
2. Proper understanding of ISO clauses

It is observed that most of third party auditors and internal quality auditors are still away from interpreting the ISO clauses in the right way even though they passed quality lead auditors courses.
